

## Preparation Checklist/Things to Note:

### COVID Tests

- ✓ Must take COVID test on December 24th or 25th prior to leaving US (cost varies/some insurance covers)
- ✓ Will need to take another COVID test when landing in Accra Airport (**about \$150 USD cash/credit card**)
- ✓ Will need to take another COVID test prior to leaving Ghana (**about \$60 USD cash only**)
- ✓ Vaccinated passengers will still need to take all COVID tests

### Vaccinations/Shots

[\(Click here for details on CDC website\)](#)

- **Required- Yellow Fever vaccination.** [Click Here](#) for list of clinics who administer the vaccine in US. MUST carry yellow fever card as it will be checked to clear passport control and customs. (NOTE: I would suggest making an appointment for this vaccine ASAP as clinics have been known to run out)
- **High Recommended- Malaria pills.** You can visit a travel health clinic (CVS or Passport Health) or check with your normal physician for prescription. You can also check with the clinic you make appointment for Yellow Fever Vaccination to see if they can write prescription for Malaria pills

- **Highly Recommended Now- Polio Vaccination**. If you were vaccinated against polio as a child, but have never had a polio booster dose as an adult, you should get this booster dose. Adults need only one polio booster dose in their lives. Check with the clinic you make appointment for Yellow Fever Vaccination to see if they can administer Polio or Polio booster vaccination OR normal physician
- **Highly Recommended Now- COVID Vaccine**
